Full Stack Web Developer

Career Objective

Motivated Full Stack Web Developer with comprehensive training at Orange Coding Academy, completing 1000 hours of technical and soft skills development. Proficient in MVC technology, Core API, HTML, CSS, JavaScript, Angular, and TypeScript. Holding a Bachelor's degree in Biomedical Informatics Engineering, I bring a strong foundation in data analysis and system design, enabling the creation of robust, user-focused web applications.

Currently gaining professional experience as a programmer, where I'm enhancing my ability to develop scalable and efficient solutions using VB.NET Windows Forms. While focusing on VB.NET, I am also working with various technologies, enabling me to build diverse applications and adapt to multiple programming environments. Committed to continuous learning and innovation, I aim to contribute to impactful projects in a collaborative setting.

Technical Skills

- **Front-End:** HTML, CSS, JavaScript, Bootstrap, Angular, TypeScript
- **Back-End:** C#, ASP.NET MVC, ASP.NET Core Web API, VB.NET Windows Forms
- **Database:** SQL, SQL Server
- **Operating Systems:** Windows
- **Software Development Practices (SDLC):** Agile, Waterfall
- **Tools:** Visual Studio, Visual Studio Code, Git, Figma, Trello

Soft Skills

Strategic Problem Solving Fast Learning Good Communication	Creativity Innovation Critical Thinking Flexibility and Adaptability	Time Management Team Collaboration Self-Motivation

Experience

ITPro – Amman/Jordan

Nov 2024 – Present

Software Developer

Work Experiences:

- Designed and developed features for ERP systems, streamlining processes such as inventory management, financial reporting, and human resources.
- Built and maintained school management systems, implementing modules for student information management, class scheduling, and performance tracking.
- Developed and customized reports using **Crystal Reports** to provide detailed insights and analytics tailored to client needs.
- Utilized VB.NET Windows Forms for creating user-friendly interfaces tailored to client-specific requirements.
- Integrated database solutions with SQL Server to handle complex data requirements for ERP and school systems.
- Debugged and optimized code for existing systems, improving functionality and minimizing downtime for end-users.
- Worked closely with clients to gather requirements, ensuring the delivery of tailored solutions aligned with organizational goals.
- Applied Agile methodologies to manage projects, track progress, and deliver results efficiently within set deadlines.

Orange Coding Academy - Irbid/Jordan

May 2024 –Nov 2024

Full-Stack Web Development Trainee

Work Experiences:

- Completed intensive training in full-stack development, including both front-end and back-end technologies.
- Developed and maintained web applications using HTML/CSS, JavaScript, C#, TypeScript, and Angular.
- Implemented responsive designs and user interfaces using Bootstrap and Angular.
- Built and consumed APIs using ASP.NET Core Web API, enhancing application functionality and data exchange.
- Worked with SQL and SQL Server for database management and querying.

Projects

Screenless Creative Kids ([GitHub Link](#))

Description: An ASP.NET Core API and JavaScript platform designed to reduce children's screen time. Features include blogs on screen risks, kid-friendly activities, and a product catalog to support healthier habits for kids.

Electronic Election System ([GitHub Link](#))

Description: Built a dynamic election system with candidate management, real-time results, and customizable forms for different electoral circles.

Fitness Application ([GitHub Link](#))

Description: Created a fitness management system with personalized plans, progress tracking, and a responsive interface using ASP.NET Core API and Angular.

Animal Adoption Platform ([GitHub Link](#))

Description: A platform using ASP.NET Core API and Angular for browsing, managing adoption requests, and admin tools for animal profiles.

E-Commerce Web Application for Candy and Sweets ([GitHub Link](#))

Description: Developed a responsive e-commerce site with features like product browsing, cart management, social login, and admin controls using ASP.NET Core API and Bootstrap.

Education

Orange Coding Academy, Irbid/Jordan

May 2024 – Nov 2024

Intensive course in Full Stack Web Development in collaboration with Simplon.co and Princess Sumaya University for Technology (PSUT).

Yarmouk University, Irbid/Jordan

Oct 2018 - Feb 2023

Bachelor's Degree in Biomedical Informatics Engineering

Grade: 82%

Key Achievements:

- Bioinformatics and Computational Biology, Clinical Data Analysis, Health Information, Biomedical Instrumentation.
- **Graduation Project (Wireless Gait Analysis Integrated with OpenEMR):** Developed a wireless system for analyzing gait patterns and integrated the data with OpenEMR for improved patient management.
- **Field Training:** Hands-on experience with biomedical devices, including maintenance, calibration, and integration with hospital information systems, at Prince Rashed Ben Al-Hasan Military Hospital.

Courses and Certificates

- **Python Project for AI and Application Development ([Coursera](#)):** Developed AI-driven applications using Python, focusing on practical implementation and project-based learning.
- **Python for Data Science and AI ([Coursera](#)):** Learned how to use Python for data analysis, machine learning, and AI applications, including libraries like Pandas, NumPy.

- **Project for Data Engineering ([Coursera](#)):** Completed a data engineering project, applying ETL processes, data pipelines, and database management using Python and SQL.
 - **Python Project for Data Science ([Coursera](#)):** Created a data science project utilizing Python to analyze datasets, build models, and visualize data-driven insights.
 - **Python Basics([Coursera](#)):** Gained foundational skills in Python programming, including syntax, control structures, functions, and basic data structures
 - **Programming in [HTML5](#) with [JavaScript](#) and [CSS3](#) ([Coursat](#)):** Acquired skills in web development by learning to build responsive web pages using HTML5, CSS3, and JavaScript.
 - **Introduction to Programming Using Java ([Yarmouk University- Queen Rania Center for Technology Studies and Community Service](#)):** Learned basic Java programming concepts, including object-oriented programming, algorithms, and data structures.
-
