Full Stack Web Developer

Career Objective

Full Stack Developer with hands-on experience in designing and developing modern web applications using ASP.NET Core Web API, .NET MVC, and legacy Web Forms. Skilled in both front-end and back-end development with technologies like JavaScript, SQL Server, and Angular, and experienced in working across academic and enterprise systems using tools like Umbraco CMS, SharePoint, and Oracle Database. Eager to contribute technical depth and problem-solving abilities to build scalable, secure, and user-friendly solutions in a collaborative development environment.

Technical Skills

- **Front-End:** HTML5, CSS3, JavaScript, Bootstrap, Angular, TypeScript, Responsive Design
- **Back-End:** C#, ASP.NET MVC, ASP.NET Core Web API, VB.NET Windows Forms, .NET Web Forms
- **Database:** SQL, SQL Server, Oracle Database
- **CMS & Platforms:** Umbraco CMS, Microsoft SharePoint
- **Development Tools:** Visual Studio, Visual Studio Code, Git, Figma, Trello, Crystal Reports
- **Operating Systems:** Windows
- **Software Development Practices:** Agile (Scrum), Waterfall, SDLC, Code Reviews, Unit Testing

Soft Skills

Strategic Problem Solving Fast Learning Good Communication	Creativity Innovation Critical Thinking Flexibility and Adaptability	Time Management Team Collaboration Self-Motivation

Experience

Al-Ahliyya Amman University – Balqa/ Jordan

Jan 2025 – Present

Full Stack Developer

Work Experience:

- Designed and implemented dynamic, user-centric web interfaces using HTML, CSS, JavaScript, and modern frameworks.
- Built and maintained robust back-end services with ASP.NET Core and SQL Server to support university-wide digital solutions.
- Integrated third-party APIs and external services to enhance platform capabilities and streamline operations.
- Worked with Umbraco CMS to manage content for public-facing university websites, ensuring ease of use and flexibility for content editors.
- Developed and maintained internal collaboration tools and document workflows using Microsoft SharePoint, improving communication and document management across departments.
- Accessed and processed data from Oracle Database systems to support cross-platform integration and reporting features.
- Collaborated closely with IT staff and academic departments to gather requirements and develop customized features.
- Ensured mobile responsiveness and cross-browser compatibility for all web applications.
- Participated in code reviews, testing phases, and deployment processes to ensure high-quality, maintainable code.
- Contributed to continuous improvement efforts by identifying performance bottlenecks and applying efficient solutions.

ITPro – Amman/Jordan

Nov 2024 – Jan 2025

Software Developer

Work Experiences:

- Designed and developed features for ERP systems, streamlining processes such as inventory management, financial reporting, and human resources.
- Built and maintained school management systems, implementing modules for student information management, class scheduling, and performance tracking.
- Developed and customized reports using **Crystal Reports** to provide detailed insights and analytics tailored to client needs.
- Utilized VB.NET Windows Forms for creating user-friendly interfaces tailored to client-specific requirements.
- Integrated database solutions with SQL Server to handle complex data requirements for ERP and school systems.
- Debugged and optimized code for existing systems, improving functionality and minimizing downtime for end-users.
- Worked closely with clients to gather requirements, ensuring the delivery of tailored solutions aligned with organizational goals.
- Applied Agile methodologies to manage projects, track progress, and deliver results efficiently within set deadlines.

Orange Coding Academy - Irbid/Jordan

May 2024 –Nov 2024

Full-Stack Web Development Trainee

Work Experiences:

- Completed intensive training in full-stack development, including both front-end and back-end technologies.
- Developed and maintained web applications using HTML/CSS, JavaScript, C#, TypeScript, and Angular.
- Implemented responsive designs and user interfaces using Bootstrap and Angular.
- Built and consumed APIs using ASP.NET Core Web API, enhancing application functionality and data exchange.
- Worked with SQL and SQL Server for database management and querying.

Projects

Screenless Creative Kids ([GitHub Link](#))

Description: An ASP.NET Core API and JavaScript platform designed to reduce children's

screen time. Features include blogs on screen risks, kid-friendly activities, and a product catalog to support healthier habits for kids.

Electronic Election System ([GitHub Link](#))

Description: Built a dynamic election system with candidate management, real-time results, and customizable forms for different electoral circles.

Fitness Application ([GitHub Link](#))

Description: Created a fitness management system with personalized plans, progress tracking, and a responsive interface using ASP.NET Core API and Angular.

Animal Adoption Platform ([GitHub Link](#))

Description: A platform using ASP.NET Core API and Angular for browsing, managing adoption requests, and admin tools for animal profiles.

E-Commerce Web Application for Candy and Sweets ([GitHub Link](#))

Description: Developed a responsive e-commerce site with features like product browsing, cart management, social login, and admin controls using ASP.NET Core API and Bootstrap.

Education

Orange Coding Academy, Irbid/Jordan
2024

May 2024 – Nov

Intensive course in Full Stack Web Development in collaboration with Simplon.co and Princess Sumaya University for Technology (PSUT).

Yarmouk University, Irbid/Jordan

Oct 2018 - Feb 2023

Bachelor's Degree in Biomedical Informatics Engineering

Grade: 82%

Key Achievements:

- Bioinformatics and Computational Biology, Clinical Data Analysis, Health Information, Biomedical Instrumentation.
- **Graduation Project (Wireless Gait Analysis Integrated with OpenEMR):** Developed a wireless system for analyzing gait patterns and integrated the data with OpenEMR for improved patient management.
- **Field Training:** Hands-on experience with biomedical devices, including maintenance, calibration, and integration with hospital information systems, at Prince Rashed Ben Al-Hasan Military Hospital.

Courses and Certificates

- **Python Project for AI and Application Development ([Coursera](#)):** Developed AI-driven applications using Python, focusing on practical implementation and project-based learning.
- **Python for Data Science and AI ([Coursera](#)):** Learned how to use Python for data analysis, machine learning, and AI applications, including libraries like Pandas, NumPy.
- **Project for Data Engineering ([Coursera](#)):** Completed a data engineering project, applying ETL processes, data pipelines, and database management using Python and SQL.
- **Python Project for Data Science ([Coursera](#)):** Created a data science project utilizing Python to analyze datasets, build models, and visualize data-driven insights.
- **Python Basics([Coursera](#)):** Gained foundational skills in Python programming, including syntax, control structures, functions, and basic data structures
- **Programming in [HTML5](#) with [JavaScript](#) and [CSS3](#) ([Coursat](#)):** Acquired skills in web development by learning to build responsive web pages using HTML5, CSS3, and JavaScript.
- **Introduction to Programming Using Java ([Yarmouk University- Queen Rania Center for Technology Studies and Community Service](#)):** Learned basic Java programming concepts, including object-oriented programming, algorithms, and data structures.
